CHATEAU | PREMIUM ABOVE GROUND POOL

The Strength and Styling of Summer Fun Pools

Summer Fun's Exclusive Support System Combines Great Looks and Real Strength

GIBRALTAR BUTTRESS-FREE SYSTEM

The Gibraltar Buttress-Free is an oval pool that does not require angle side supports (buttresses), which take up extra yard space. This unique system delivers unsurpassed structural strength without visible supports, has an attractive streamlined appearance and takes up less valuable yard space. For example, a 15' x 30' oval pool with buttresses requires 21' x 30' once installed. A 15' x 30' Gibraltar oval only requires 15' x 30'. You save 180 square feet of yard space or have enough room for a larger pool.

Gain up to 2.5 ft. per side!

All-Weather Protection for Years of Family Fun

The top rails and verticals are constructed from 100% high-impact resin plastic for the ultimate in durability and corrosion resistance. Summer Fun's unique quadra-fold system and bolting pattern provides maximum wall joint strength. Pool walls are corrugated for increased durability and resistance to ice and impact damage. Only Summer Fun features the self-supporting stabilizer bar developed to simplify homeowner installation. This ease of assembly has made Summer Fun the number one choice of many professional installers.

FEATURING:

RESIN BOTTOM RAILS

- Moulded from 100% high-impact resin plastic for superior durability and corrosion resistance
- Extended wall retainer flange providing easy wall installation and additional reinforcement
- Internal rib structure for maximum support and strength
- Incorporated groove for positive insertion of rails into resin base plate

RESIN FOOT PLATES

- Constructed of 100% high-impact resin material for greater longevity and corrosion resistance
- Engineered with deep ribbed structure for maximum strength
